

# PEDAL POWER ASSEMBLY

SAFE ROUTES  
TO SCHOOLS  
MARIN COUNTY

P.O. Box 1115, Fairfax, CA 94978

**Safe Routes to Schools is proud to offer our new Pedal Power Assembly. We will work with the students and teachers at your school to create a skit on the joys of walking and biking while protecting the environment.**

## About the Skit

In the skit, a mother and her children are stuck in traffic, with chaos surrounding them... horns are blasting, kids are bored, nerves are frayed, and frustrations mount. The family begins choking on fumes created by a Traffic Monster, who is feeding the car with his pals, Gas and Oil. Eventually, the parent and children leave the beastly vehicle and follow the Traffic Transformer a magical bicyclist through a passage into a world where there is no pollution because so many people walk and bike together to get to places. The cast sings a song about biking and walking, which was composed by Tim Cain for Safe Routes to Schools. The skit is both informative and entertaining.

## Sign Up!

To sign up for the assembly contact Peggy Clark 415-456-3469 ext 6# or [peggy@marinbike.org](mailto:peggy@marinbike.org)

## Tim Cain

For an extra \$300 you can get Tim Cain in person who will arrive on his hand powered bicycle and entertain your students with more environmental songs.
